

ROOFING CONTRACTOR
Serving Fort Worth and North Central Texas

ROOFING CONTRACTOR IN FORT WORTH

Bringing trust back into the roofing industry.

A storm restoration company in Fort Worth, owned by Roney Pollard, that handles the whole claim rather than the roof and nothing else.

WHAT WE DO

Roof Replacement

A full tear-off, new decking where the old decking has gone soft, and a roof that carries a manufacturer warranty.

Roof Repair

A leak, a slipped shingle, a flashing detail that has given up. Sometimes it is a repair, and we will say so.

Storm Damage Restoration

Roof, siding, gutters, window screens, paint and the ceiling the water came through. One company for the whole claim.

Insurance Claim Help

Seven steps from the first photograph to a filed claim, with someone standing on the roof next to the adjuster.

HOW WE WORK

We handle every step, start to finish.

From the first look through the final walkthrough, you deal with one crew that keeps you posted and keeps the site clean.

01

Document

Every piece of storm damage on the house is identified, located and recorded before anything is touched or claimed.

02

File the claim

The claim goes in to your carrier, and the paperwork is handled with you rather than left on your kitchen table.

03

Meet the adjuster

Somebody is on the roof next to the adjuster, showing them the damage rather than hoping they find it from a ladder.

04

Agree and build

A timeline both sides sign up to, then a foreman on site while the roof goes on and a magnet over the drive each evening.

Reviewed on Google under real names. Serving Fort Worth and North Central Texas, and every quote written before the work starts.

WHY HOMEOWNERS CHOOSE US

Straight

Plenty of roofs turn out to have one failed detail and years of life left in them.

Documented

Claims turn on documentation more than on damage. Two identical roofs after the same storm get different settlements, and the difference is whether anything was photographed, located and described before the adjuster arrived.

Tidy

A magnetic sweeper goes over the drive and the lawn each day the crew is there, roofing debris comes out of the gutters as well as off the ground, and the pool and the planted beds get covered before anything comes off the roof.
